Enum Constant Details

CREATE

```
public static final AuditAction CREATE
```

UPDATE

```
public static final AuditAction UPDATE
```

DELETE

```
public static final AuditAction DELETE
```

DISABLE_ACCOUNT

```
public static final AuditAction DISABLE_ACCOUNT
```

Method Details

values

```
public static AuditAction[] values()
```

Returns an array containing the constants of this enum class, in the order they are declared.

Returns:

an array containing the constants of this enum class, in the order they are declared

valueOf

```
public static AuditAction valueOf(String name)
```

Returns the enum constant of this class with the specified name. The string must match *exactly* an identifier used to declare an enum constant in this class. (Extraneous whitespace characters are not permitted.)

Parameters:

name - the name of the enum constant to be returned.

Returns:

the enum constant with the specified name

Throws:

[IllegalArgumentException](#) - if this enum class has no constant with the specified name

[NullPointerException](#) - if the argument is null
